P R E P A R E - P R O T E C T - P R O V I D E

**MedJetAssist: *Who's Bringing You Home?***: Membership that covers you for an entire year *worldwide!* [MedJetAssist](#) brings you home to the hospital of YOUR choice when you are more than 150 miles from home and need hospitalization. No paperwork or fees – just a collect call, a comforting advocate and medically escorted flight home! ***Provides peace of mind AND may save your life.***

**Carry On Luggage that carries you!** [Swany Walkin' Bag](#) is for anyone tired of dragging their luggage through airports and at the destination. The 4 -wheeled bags allow smooth sailing down long airport corridors and a place to sit or lean on when you need a rest! A smart product for any traveler, it is especially recommended for those who value convenience and comfort.

**No more melt-downs!** [Icy Bag](#): Keeping *your* cool is important when traveling. This is also true for some medications, snacks, and cosmetics. This insulated bag is large enough to carry a sandwich, medication, lotions and cosmetics, yet small enough to hook onto a carry-on bag or fit inside a purse. Great for travel, golf, or beach. Variety of colors (black, pink, turquoise) makes it great for men and women.

**Multi-Purpose and Comforting!** Personalizing your space is comforting, hygienic, and smart.

[PlaneComfort](#) is a water-resistant, hands-free tote, handy enough to grab whenever leaving home. A great addition to your carry-on, this bag holds carry-on items as well as provides your very own inflatable pillow and blanket. Big enough to share with your travel companion – the blanket is soft and can be used in flight, on buses, trains, or wherever you go! Available in solid or print.

**PlaneSheets**: *Flight attendants may gag when asked about the cleanliness of airplane seats.*

The blunt truth is that some passengers:

- Don't always make it to a sick bag or restroom
- May have communicable diseases, lice, body odor, contaminated body fluids, etc.

They spend hours in that seat before you get there – protect your self and lean into the clean, comfort of your very own [PlaneSheets](#)! The cover simply slides over top of seat. Available in disposable or washable/reusable and fits into the [PlaneComfort](#) bag for easy transport and storage.

**Ear Popper**: Don't miss half your vacation due to ear pain, hearing loss, or fullness –the Eustachian tube issues exacerbated by airplanes and altitude. Small, convenient and natural, this device fits easily into the [PlaneComfort](#) bag and can be used by all ages for quick relief.

Registered nurse and author Anya Clowers is a travel expert working as a liaison between the medical community and the travel industry. As an advocate for the smart traveler, she works with physicians, manufacturers, travel experts, medical organizations, etc. – finding the best tips, products, and services to increase the quality of travel.
